

# Why not make the smart choice to become a Safe Rider *today*?

Being a Safe Rider and riding responsibly is a personal choice you make every time you operate a snowmobile.

Safe  
RIDER

To make snowmobiling a safe recreational activity and reduce your own risk of injury or death, here are some of the safe riding behaviours that will help you make smart choices:

- review and understand all the safety materials provided with your sled
- stay on marked OFSC trails
- keep to the right side of the trail
- slow down on all corners and when cresting hills
- avoid consuming alcohol
- wear an approved snowmobile helmet
- stop before crossing roads and railway tracks
- use the approved snowmobile hand signals
- wear reflective clothing at night
- carry an emergency survival kit
- always ride with a buddy

Remember, like most other motorized recreational activities, snowmobiling can be a high risk sport if you do not ride safely and responsibly. The legal provincial speed limits for snowmobiles are: 50 km/hr on trails; 20 km/hr on highways with automobile speed limits of 50 km/hr or less; and 50 km/hr on highways with automobile speed limits of more than 50 km/hr.
